

Welcome to the Tenderheart Kennel Family!

Thank you so much for picking one of our beautiful puppies to be your new family member. Please take a few moments to read through all of the paperwork included in your new puppy packet. It will contain medical/immunization records, information about food and water, registration (if applicable) and microchip (if applicable). If at any time you have any questions or concerns please refer to your puppy packet and of course contact us.

Please take the time to find a veterinarian for your puppy, if you do not already have one. He/she should be your first call made when you have medical concerns about your puppy.

We love to hear from you about your puppy. Please let us know how he/she is doing and we especially love to get pictures as he/she grows. We have a private Facebook group that you may join to help you connect with us and other families with a Tenderheart puppy.

Here is our contact information:
